OVERVIEW

Customer Support Chatbot

An AI support chatbot: understand requests, answer from a knowledge base and hand off to humans when needed.

CATEGORY	DIFFICULTY	DURATION
Support & AI	**Advanced**	**About 3 hours setup**

Use case

Support teams that want to automate common questions

Tools used in this workflow

OpenAI API · Supabase · Astro · Resend API

STEP BY STEP

How to build it

1

Build a knowledge base from FAQs and docs

Centralize trusted answers for retrieval.

RESOURCES

!’ OpenAI Retrieval Guide

2

Generate embeddings for semantic search

Turn documents into vectors for similarity search.

RESOURCES

!’ OpenAI Embeddings

3

Implement a chat endpoint with context retrieval

Combine retrieved context with the user question.

RESOURCES

!’ OpenAI Chat Completions

4

Set up escalation to humans via email

Hand off complex cases with full context.

RESOURCES

!’ Resend Docs

5

Continuously evaluate answer quality

Review transcripts and improve prompts and sources.

RESOURCES

!’ OpenAI Evals
